

STATEMENT OF REASONS FOR THE DECISION OF THE VICTORIAN ABORIGINAL HERITAGE COUNCIL (COUNCIL) IN RELATION TO AN APPLICATION BY EASTERN MAAR ABORIGINAL CORPORATION

DATE OF DECISION: 7 February 2019

1. Decision

The Victorian Aboriginal Heritage Council declined, in part, the application from Eastern Maar Aboriginal Corporation (**EMAC**) to be a Registered Aboriginal Party (**RAP**) under the *Aboriginal Heritage Act 2006* (**Act**).

2. Decision Area

The original RAP application from EMAC (**application**) was made on 25 July 2011. EMAC submitted a second application on 15 August 2014 to extend its application area. The application was divided into separate Zones and is being considered by Council in stages.

The present decision to decline EMAC's application relates to EMAC's second application. The relevant areas overlap part of the Wathaurung Aboriginal Corporation (**WAC**) RAP area (**Decision Area**). The Decision Area is shown in the attached map (**Attachment 1**) and is described as:

- the area located west of Ballarat with Skipton at its centre and which extends northerly past Beaufort and southerly to Cressy
- the area located in Victoria's surf coast district that incorporates Airey's Inlet, Point Addis Marine National Park, Anglesea and surrounding areas, and extends northerly but excludes Winchelsea.

3. Findings of Fact and Evidence

In relation to the Decision Area, Council made the following findings of fact, based on the evidence and other material detailed.

a) Native title (s 151(2) of the Act)

EMAC is not a registered native title holder for the Decision Area. There is no registered native title holder for the Decision Area.

EMAC is a registered native title holder for areas south-west of the Decision Area, pursuant to the Federal Court consent determination of native title in the 'Part B' area by GMTOAC, for the Gunditjmara People, and EMAC, for the Eastern Maar Peoples (**Eastern Maar**). Part B is an area between the Shaw and Eumeralla Rivers from Deen Maar (including Yambuk) to Lake Linlithgow and is outside the Decision Area.

b) Recognition and settlement agreement (s 151(2A) of the Act)

Council noted that the Victorian Government and Eastern Maar Traditional Owner Group (EMTOG) are negotiating a Recognition and Settlement Agreement (RSA) under the *Traditional Owner Settlement Act 2010* (Vic) (TOS Act) in relation to an area that includes the Decision Area. At the time Council was considering the EMAC application, EMAC had not met thresholds in respect of the Decision Area.

As EMAC is not a Traditional Owner Group Entity that has entered into an RSA with the State under the TOS Act in relation to the Decision Area, Council is not required by s 151 (2A) of the Act to register EMAC as a RAP for the Decision Area.

c) Native title party (s 151(3)(a) of the Act)

EMAC is not a native title party for the Decision Area. A native title determination application brought on behalf of the Eastern Maar Peoples was registered with the Federal Court of Australia on 20 March 2013 (**NT Claim**). The NT Claim does cover the Decision Area.

d) Terms of any native title agreement (s 151(3)(b) of the Act)

Neither EMAC, nor any other party, brought any native title agreement to Council's attention in respect of the Decision Area.

e) Representation - Traditional Owners of the Decision Area (s 151(3)(c) of the Act)

i) Recognition of Eastern Maar People as Traditional Owners and EMAC membership

EMAC is a Prescribed Body Corporate under the *Native Title Act 1993* (Cth) and holds native title on behalf of the Eastern Maar People with respect to the Part B area. Following this native title determination, Council recognised EMAC as an organisation representing Traditional Owners with respect to the Part B area.

A person is eligible for EMAC membership if the person is an Aboriginal person who is an Eastern Maar Person, defined as a member of the Eastern Maar Traditional Owner Group, and is at least 18 years of age.

The EMAC Rule Book provides that 'The Eastern Maar Traditional Owner Group' is a name adopted by the people who identify as Maar, Eastern Gunditjmara, Tjap Wurrung, Peek Whurrong, Kirrae Whurrung, Kuurn Kopan Noot, Yarro waetch (Tooram Tribe), Gulidjan and/or Gadubanud amongst other names, who are Aboriginal people and who are:

- descendants, including by adoption, of the ancestors identified in the Rule Book;
- members of families who have an association with the former Framlingham Aboriginal Mission Station, with the exception of the descendants of Richard Sharp who do not need to meet this requirement of having an association with the former Framlingham Aboriginal Mission Station; and

 recognised by other members of the Eastern Maar Traditional Owner Group as members of the group.

The identified ancestors in the EMAC Rule Book are: King of Port Fairy and Eliza, Old Jack (father of John Dawson), Charlie and Alice (parents of Albert Austin), Samuel Robinson and Mary Caramut, Lizzie (mother of Frank Clarke), Robert and Lucy (parents of Alice Dixon), Barney Minimalk and Nellie Whitburboin, Louisa (mother of William Rawlings), Jim Crow (son of Beeac) and Richard Sharp.

Council noted correspondence from EMAC which states that its Board comprises directors elected as representatives of their individual family groups, ensuring a fair representation of the Eastern Maar community, and that each of the 12 family groups is entitled to elect a director to the Board.

ii) Traditional Ownership of the Decision Area

In a number of items of correspondence, Council asked EMAC to provide information supporting its claim of traditional ownership of the Decision Area, EMAC's representativeness of the Traditional Owners of the Decision Area and details about the work experience of EMAC members in caring for Aboriginal places in the Decision Area.

EMAC did not provide Council with information Council requested to support its claim of traditional ownership of the Decision Area and made undetailed reference to undertaking RAP operations with GMTOAC in the 'Part B' area and engaging with government organisations in undertaking cultural heritage management. Council requested, but did not receive, evidence of EMAC's cultural heritage management procedures.

Council noted that EMAC's application states that other Aboriginal groups recognise its traditional connections to EMAC's application area. However, EMAC did not elaborate as to the manner in which these links are recognised.

The Decision Area overlaps WAC's RAP area. Council noted correspondence from EMAC and WAC that demonstrated their intention to undertake boundary negotiations. Council requested further information from EMAC on any action it had taken to progress boundary negotiations with WAC. However, EMAC did not provide evidence that formal discussions with WAC had commenced. At the time of making its decision Council was not aware of any meetings held between WAC and EMAC to discuss EMAC's application over the Decision Area.

While acknowledging EMAC's claim to the Decision Area, Council had regard to WAC's status as the RAP for the Decision Area and WAC's comments in relation to the application and concluded it was not satisfied EMAC is a body representing the Traditional Owners of the Decision Area.

f) Representation - historical or contemporary interest and demonstrated expertise in managing and protecting Aboriginal cultural heritage (s 151(3)(d) of the Act)

EMAC stated in information provided to Council that it represents Aboriginal people who have a historical or contemporary interest in the Aboriginal cultural heritage of the Decision Area. However, EMAC did not elaborate on these interests in the information provided.

EMAC also provided undetailed information regarding its expertise in managing and protecting Aboriginal cultural heritage that was noted by Council.

While Council acknowledged that EMAC has been operating as a RAP since its appointment in December 2013, Council sought further detail from EMAC about the experience of its members in caring for Aboriginal places in the Decision Area and evidence of EMAC's cultural heritage management procedures, such as policies or an operational plan. Such information was not provided by EMAC. Council concluded that further information was required for it to have sufficient understanding of EMAC's capacity to manage and protect Aboriginal cultural heritage.

g) Grant of land in fee simple (s 151(3)(e) of the Act)

A search of relevant registers, and information from EMAC, did not disclose any grants of land in fee simple made to EMAC under a specific power in a State or Commonwealth Act in relation to the Decision Area.

h) Land and natural resource management agreements (s 151(3)(f) of the Act)

No land and resource management agreements were referred to by EMAC in its RAP application.

4. Reasons for decision

The following steps have been taken into account in Council's decision-making process.

a) Legislation

In deciding EMAC's RAP application over the Decision Area, Council took into account all of the matters it is required to consider under sections 151 of the Act.

EMAC is not a registered native title holder for the Decision Area within the meaning of section 151(2) of the Act, and has not entered into a recognition and settlement agreement in relation to the Decision Area within the meaning of section 151(2A) of the Act. As such, Council is not obliged to approve EMAC's RAP application over the Decision Area under sections 151(2) or 151(2A) of the Act.

Council considered the matters set out in section 151(3) of the Act and concluded that those factors were not established. In considering the matters set out in section 151(3)(a), Council established that EMAC was not a native title party in relation to the Decision Area. In

considering the matters set out in section 151(3)(b), Council established that no terms of any native title agreement (as that term is defined in the Act) had been brought to Council's attention. In considering matters set out at section 151(3)(e), Council established that there had been no relevant grants of land in fee simple to an Aboriginal body by the State or Commonwealth in relation to the Decision Area. In considering section 151(3)(f), Council established that there had been no relevant land and natural resource management agreements entered into by EMAC with the State.

Council considered sections 151(3)(c) and 151(3)(d). In doing so Council considered a number of factors, including: EMAC's membership and Rule Book; EMAC's responses to Council's request for information about the traditional or cultural connections of the Eastern Maar to the Decision Area, EMAC's representativeness, and details about the cultural heritage management experience of EMAC members; and WAC's status as a RAP over the Decision Area. While Council acknowledged information provided by EMAC to support its claim that it represents the Traditional Owners of the Decision Area, Council Owners of that area.

b) Policy

Council applied its policies as contained in its 'Fact Sheet for RAP applicants on registration of multiple RAPs for a single area' and 'General Principles - RAP Decision Making'.

Council's policy is to accord appropriate status to Traditional Owners with a preference to appoint Traditional Owner body corporates as RAPs.

Council's policy is also to appoint RAPs that are single, inclusive groups and representative of Traditional Owners in the relevant Decision Area.

c) Charter of Human Rights and Responsibilities

Prior to making the relevant decision, Council gave careful consideration to the *Charter of Human Rights and Responsibilities Act 2006* (**Charter**), having particular regard to the distinct cultural rights of Aboriginal persons recognised in section 19(2)(d) of the Charter.

Council formed the view that the decision to decline to register EMAC over the Decision Area is compatible with the Charter.

Council took account of the fact that in declining the application over the Decision Area EMAC will not be able to protect Aboriginal cultural heritage in the Decision Area as a RAP for that area. Council also took into account that the decision to decline does not prevent EMAC from reapplying for registration as a RAP over the Decision Area in future.

Taking into account the factors set out in section 151(3), particularly the s 151(3)(c) factor, when read with the purposes of the Act (including one of the 'main purposes' being 'to empower Traditional Owners as protectors of their cultural heritage....'), Council formed the view that any limitation to the rights of those Traditional Owners represented by EMAC is

justified by the importance of Council needing to be satisfied as to the Traditional Owners of an area when making RAP appointments. In this regard, Council did not identify any less restrictive means available to achieve this purpose, other than declining EMAC's RAP application over the Decision Area.

Conclusion

Having taken all matters detailed above into account, Council declined EMAC's application to be registered as a RAP over the Decision Area.

While Council acknowledges there may be members of EMAC who are Traditional Owners of the Decision Area, Council came to the conclusion it was not satisfied EMAC is a body representing the Traditional Owners of the Decision Area.

Council's decision does not preclude future applications over the Decision Area from EMAC. If EMAC were to consider preparing a future RAP application over the Decision Area, Council would expect EMAC to form an agreement with WAC about boundaries and cultural heritage management responsibilities in relation to that area before applying.
